- It encourages the establishment of such spaces, recognizing that it may be a simple but meaningful improvement. Proper lighting, clearly visible spaces, seating areas, and community awareness are essential in ensuring that these areas effectively protect young commuters. Equally important is the collaboration among relevant stakeholders.
- The success of the initiative relies not only on the City Government but also on the active participation of barangays, schools, transport groups, community organizations, and private establishments.
- When the community works together to protect children, it creates a safer environment where parents feel more secure sending their children to school. It also allows students to focus on learning rather than worrying about their safety during their commute.
- It was noted that Quezon City has long been a leader in progressive policies that protect vulnerable sectors. The establishment of safer waiting areas for minors and student commuters was recognized as another meaningful step toward building a truly child-friendly city.

- Sexual assault remains a serious concern in Quezon City, with cases reported annually. Many incidents may go unreported due to fear, stigma, and limited access to support services. Some reported cases may not progress due to insufficient or improperly handled evidence.
- For more than two decades, Filipino scientists have worked to address gaps in sexual assault investigations. The Sexual Assault Investigation Kit (SAIK) was developed by researchers from the University of the Philippines, led by forensic experts such as Dr. Maria Corazon De Ungria.
- In 2026, SAIK reached full development, production, and initial public availability. This was recognized as a major milestone in improving sexual assault investigation efforts.
- A standardized, Filipino-developed forensic tool is now available to support sexual assault investigations. The tool promotes proper evidence collection, documentation, and preservation. It is expected to help strengthen cases and improve the proper presentation of evidence in court.
- The proposed resolution proposes the pilot implementation of the SAIK in Quezon City-owned public hospitals: Quezon City General Hospital, Novaliches District Hospital, and Rosario Maclang-Bautista General Hospital. The implementation aims to strengthen the healthcare response and improve medico-legal processes and gave victims a real chance of justice.
- The initiative was emphasized as not only a health measure but also a public safety and justice measure.

- to include all Councilors present as Co-Introducers of the measure

On motion of Councilor Rodriguez, duly seconded, **PR23CC-784** was **APPROVED** on second reading, with the following manifestations from the Proponent and the adoption of the amendment made, **including all councilors present as co-introducers of the measure:**

- As Quezon City continues to grow, more families are residing in condominium and residential communities, which should serve as safe homes for its residents. But recent incidents have shown that these communities are not entirely free from danger.
- In the event of an incident within a residential community, such as a security breach or emergency, the community's preparedness is of utmost importance.
- The proposed measure seeks to encourage the implementation of condominium and residential community safety preparedness programs in Quezon City, which aim to establish clear protocols, ensure proper coordination with concerned authorities, and conduct regular drills to ensure that residents are adequately prepared in times of emergency.
- Safety is a collective responsibility that requires collaboration among the City Government, barangays, and residential communities. The Proponent highlighted that a community that is well-prepared is inherently safer.

MINUTES, 67th REGULAR SESSION, MONDAY, SEPTEMBER 14, 2026

On motion of Councilor Juico, duly seconded, **PR23CC-1077** was **APPROVED** on its second reading, with the following manifestations from the Proponent and an amendment **to include all councilors present as co-introducers of the proposed measure:**

- The proposed resolution seeks the approval of the amended joint venture agreement between the Quezon City Government and Ecobridges Ads, Inc. for the footbridge donation, redevelopment, monitoring, and maintenance of the project.
- The Joint Venture Agreement was executed on December 1, 2021, signed by the City Mayor and the private partner, Ecobridges Ads, Inc. An amendment was made on February 13, 2024, replacing the Priority Philcoa Footbridge with eleven (11) alternative footbridges. Following technical verification and discussions between the parties, three (3) priority footbridges are proposed to be submitted along with ten (10) footbridges. These are Ortigas Avenue - Robinson's Galleria, Katipunan White Plains corner B. Serrano, and Quezon Avenue – Welcome Rotonda, to be replaced by ten (10) new bridges, as follows: Commonwealth – Central Avenue, Katipunan – Miriam College, Katipunan – Rajah Matanda, EDSA – East Avenue, Mindanao Avenue corner North Avenue, Commonwealth – U.P. AIT (Asian Institute of Tourism), Quezon Avenue – Scout Chautoco, Quezon Avenue – Dr. Garcia, Quezon Avenue – D. Tuazon, and Mindanao Avenue – Road 1 (Project 6).
- At the moment, for the 34 bridges, the capital expenditures (CapEx) that Ecobridges has been allotted are around PhP75 Million, and operational maintenance (OPEX) is around PhP64 Million for 34 bridges.
- Revenue share of the city is at five percent (5%) for the first to fifteenth year and on sixteenth to twentieth year is at ten percent (10%).
- Ecobridges also pays local business tax, signage permit, and mayor's permit. So far, the general income to the city, for the city coming from this joint venture agreement is close to PhP11 Million.
- The agreement shall commence on the effectivity date and shall continue for a period of sixteen years, including one year for the construction period. The term shall be automatically renewed for another five years thereafter unless either party gives the other party written notice of non-renewal not less than 180 days before the end of the current term.
- Expected income of the city by the end, with the assumption that the joint venture agreement reached its full term, is around PhP244 Million. With the said amount, the estimated OPEX coming from the private proponent by the end of its term is at PhP2.2 Billion.
- There are currently 38 bridges incorporated under the Ecobridges program, while there are still 129 bridges that are not with Ecobridges.
- There are also quarterly reports by EAI or Ecobridges Ads Inc. and ocular visits done by the Local Economic Development and Investments Promotions Office (LEDIPO), and separate spot checking also done by the latter.

MINUTES, 67th REGULAR SESSION, MONDAY, SEPTEMBER 14, 2026

Councilor Melendez expressed no objection to the proposed measure and commended its proponent for the important initiative. She acknowledged the controversy surrounding the variation of the Public-Private Partnership (PPP) agreement with Ecobridges Ads, Inc. Reflecting on a related measure discussed two weeks earlier, she noted that Councilor Juico's proposal would directly affect the safety, accessibility, and daily experiences of QCitizens, which she deemed crucial. The Lady Councilor underscored the necessity of collaboration to ensure public infrastructure remains safe, useful, and well-maintained.

Councilor Juico thanked Councilor Melendez for her manifestation. He stated that the agreement adopted a whole-of-city approach, noting that the approval process for the joint venture had been very stringent as part of the local Public-Private Partnership (PPP) framework mandated by an ordinance. He further explained that the proposal was unsolicited and had undergone the required 90-day competitive challenge, during which no other party submitted a competing proposal.

The Proponent further explained that from the grand scheme of things, the capital needed for the maintenance of all these projects amounted to PhP75 Million—funds that the city government would no longer need to allocate for the upkeep, maintenance, and rehabilitation of those bridges. As a result, those financial resources could now be redirected toward other basic services. Furthermore, the Proponent noted that the joint venture agreement did not require the city to spend any funds; instead, the city would even generate revenue simply because the bridges are located within Quezon City over the full term of the agreement.

Councilor Melendez acknowledged the collaborative effort in securing a project that will generate PhP75 Million for the city, crediting both Councilor Juico and the city government. She expressed her belief that the proposed measure would not have been successful without the Proponent's assistance and voiced her pride in Councilor Juico's ability to secure these funds for the city's benefit.

Following Councilor Juico's statement that the city's earnings by the end of the contract would reach PhP244 Million, Councilor Melendez expressed increased support and reasons to commend the Proponent.
