- during the Committee deliberations, Ms. Irene Miranda, representative of the Social Services Development Department (SSDD), expressed the Department's full support for the proposed measure. She recognized the necessity of establishing the Residential Care Services Office as a separate and specialized office to effectively address the growing demands of residential care and rehabilitation services; and
- to include Councilors Maria Eleanor "Doc Ellie" R. Juan, O.D., Mikey F. Belmonte, Atty. Voltaire Godofredo "Bong" Liban III, Shaira "Shay" L. Liban and Joseph P. Juico as Main Introducers of the measure

MINUTES, 69th REGULAR SESSION, MONDAY, SEPTEMBER 21, 2026

On motion of Councilor Visaya, duly seconded, **PO23CC-211** was **APPROVED** on its second reading, with the following manifestations from the Proponent and the adoption of the amendments made:

- The proposed measure seeks to strengthen and institutionalize the degree of residential care and rehabilitation services of the Quezon City Government by establishing the Residential Care Services Office (RCSO) as an attached office of the Social Services Development Department (SSDD).
- At present, the Residential and Rehabilitation Division under the SSDD manages and oversees several care facilities that provide shelter, protection, rehabilitation, and specialized intervention to some of the most vulnerable sectors of society.
- These facilities include the Molave Youth Home, Reception and Action Center for Mendicants, the Home for the Aged and Hospice Section, the Quezon City Bahay Kalinga for Children, and the Quezon City Processing Center. Each of these facilities serves a distinct group of clients with unique and often complex needs. They require focused management, specialized programs, appropriate intervention, and dedicated personnel to understand the particular circumstances of the individuals under their care.
- As demand for residential care and rehabilitation services continues to increase, it has become necessary to establish a more responsive, efficient, and dedicated organizational structure that will allow these facilities to effectively fulfill their respective mandates.
- Through this proposed ordinance, the Residential Rehabilitation Division shall be separated from the existing organizational structure of the SSDD and constituted as a Residential Care Services Office (RCSO).
- The RCSO shall remain attached to the SSDD to ensure proper policy coordination, program integration, and alignment for the city's overall social welfare and development objectives.
- The proposed measure further provides for the creation of two (2) sections under the RCSO; this organizational structure is intended to strengthen operational management and improve the delivery of residential care, rehabilitation, case management, and client welfare services.
- Equally important is the provision of sixty-four (64) additional plantilla positions. It is not merely an increase in manpower, but an investment in the people who are entrusted with care, protection, rehabilitation, and welfare of the city's most vulnerable residents.
- With the additional personnel, the RCSO will be better equipped to provide professional, compassionate, responsive, and client-centered services across its various residential care facilities.

MINUTES, 69th REGULAR SESSION, MONDAY, SEPTEMBER 21, 2026

- The proposed organizational reform has undergone the necessary administrative and financial evaluation. The Human Resource Management Department (HRMD) has interposed no objection to the creation of the RCSO and corresponding 64 plantilla positions have been found the proposed organization structure and staffing pattern to be in order.
- The Certificate of the Availability of Funds (CAF) has been issued by the City Budget Department affirming the availability of funds necessary for the establishment and operation of the proposed office and its personnel complement.
- The City Legal Department has reviewed the proposed ordinance and has provided its recommendation, which has been duly incorporated in the amended version to ensure that the proposed measure conforms with applicable legal requirements.
- The proposed measure is about strengthening the city's capacity to care for those who need the government's assistance the most by establishing the RCSO, creating an organizational structure that is more focused, more responsive, and better equipped to meet these responsibilities. It is, therefore, not simply a reorganization of an office; it is an investment in the city's social protection system and, more importantly, an investment in the dignity and welfare of the people.

In response to the inquiry of the Acting Presiding Officer (Councilor Mikey Belmonte) regarding the basis for determining the sixty-four (64) plantilla positions, Councilor Visaya explained that the proposed positions were allocated among the five (5) residential care service facilities. The facilities had an existing total of one hundred thirty-four (134) plantilla positions and required an additional sixty-four (64) positions. Each facility had proposed the additional plantilla positions.

The Acting Presiding Officer expressed his full support for the proposed measure, emphasizing that the residential care and rehabilitation of abandoned and neglected children, persons with disabilities, older persons without family support, and other residents required round-the-clock monitoring and continuous services. Many of the needs of persons with disabilities were still being shouldered by their families and constituents. Thus, it is deemed appropriate for the division to have a separate office to focus on these concerns.

The Acting Presiding Officer suggested the inclusion of additional transition clauses in the proposed measure to expressly provide for the turnover of records, ongoing cases, residents under care, and properties from the Residential and Rehabilitation Division to the new care service office within a prescribed transition period. He emphasized that such provisions would ensure a smooth and uninterrupted transition and continuity of care for residents of shelter and rehabilitation facilities. While these matters might already form part of the implementation, it would be appropriate to expressly provide for them in the proposed measure.

Councilor Visaya stated that the amendments suggested by the Acting Presiding Officer would be incorporated into the amended version of the proposed ordinance.

The Acting Presiding Officer inquired about the requirement for the Department of Budget and Management (DBM) certification and concurrence with the Civil Service Commission (CSC) attestation of the staffing pattern for the sixty-four (64) plantilla positions prior to its implementation.

MINUTES, 69th REGULAR SESSION, MONDAY, SEPTEMBER 21, 2026

The Proponent explained that, upon approval of the proposed measure on third and final reading, the City Budget Department would submit the measure to the Department of Budget and Management (DBM) for certification.

- The Kasagana-Ka Mutual Benefit Association, Inc. is a non-stock, non-profit organization that is not primarily established to generate profits for its shareholders. Its objective is also to provide assistance to low-income Filipino families, particularly QCitizens. It also operates a dormitory that provides temporary shelter to its members during times of typhoons and other emergencies.
- The organization has been in existence since 2005. On motion of Councilor Aly Medalla, duly seconded, **PR23CC-1095** was **APPROVED** on its second reading, with the following manifestations from the Proponent and the **adoption of all amendments made during the committee hearings, and to include all councilors present as co-introducers of the measure:**

- The proposed resolution seeks to urge the Philippine Atmospheric, Geophysical and Astronomical Services Administration (PAGASA), the national government agency under the Department of Science and Technology (DOST) responsible for weather-related concerns, to undertake the necessary actions relative to the matter.
- The resolution recommends that PAGASA issue and publicly release weather advisories concerning the suspension of morning classes between 3:00 and 4:00 A.M. and the suspension of afternoon classes between 9:00 and 10:00 A.M.

MINUTES, 69th REGULAR SESSION, MONDAY, SEPTEMBER 21, 2026

- The proposed measure would provide Local Government Units with sufficient time to assess weather conditions, coordinate with education authorities, and announce the suspension of classes before learners and school personnel leave their homes or report for work.
- Based on their experience, there are instances when weather bulletins are issued at around 6:00 A.M. By that time, students, employees, teachers, and other school personnel have already begun their commute to school. Consequently, they may already be at the school premises by the time the suspension of classes is announced. Aligning the release of weather bulletins with the proposed schedule would make the suspension of classes more efficient and, most importantly, safer for learners and school personnel.
- This urges PAGASA to release these bulletins within the recommended timeframe.

Councilor Delarmente, as a mother of two (2) and as a Quezon City Councilor, expressed her full support for the proposed resolution. She shared that, as a mother, she and her children wake up as early as 5:30 A.M. to prepare her children for school. She noted that it can be particularly difficult when a class suspension is announced only after the children have already arrived at school, as parents are then required to make arrangements to bring their children home. She emphasized that the situation can be especially challenging for working parents who may already be at their workplaces when the suspension is announced and may have difficulty arranging for the safe return of their children to their respective houses.

The Lady Councilor reflected on the severe flooding in District I, highlighting it as one of the first areas impacted during rainfall. She addressed the challenges of suspending classes, noting that while agencies like DOST can easily announce such measures, it complicates the situation for parents and students trying to navigate heavy rain and flooding to return home. The Councilor voiced her support for a resolution and urged DOST and PAGASA to promptly release weather bulletins in response to the Council's request.

Councilor Belmonte (Mikey), the Acting Presiding Officer, expressed strong support for the proposed measure aimed at enhancing child safety. He echoed Councilor Delarmente's concerns regarding the burdens placed on parents, particularly about risking their children's safety to meet attendance requirements amid hazardous conditions. He highlighted the necessity of prioritizing the safety of children and parents, especially those navigating flooded areas to pick up their children. He concluded with a desire for the resolution's approval to facilitate the distribution of printed copies in relevant offices, including PAGASA, to ensure proper dissemination.

Councilor Medalla (Aly) expressed her appreciation to Acting Presiding Officer Mikey Belmonte and Councilor Delarmente for their support of the proposed resolution.
